

excitement is standard equipment! The small blue car lurking behind that '61 Corvette is a 1927 Bugatti. It was as exciting as any car can be, but it was a little short on creature comfort and only the best coordinated and most sinewy could hope to drive it. The Corvette, on the other hand, guarantees unstinting devotion to all the details of driver-passenger comfort and accommodation with *no* sacrifice in flashing performance or impeccable handling. Anyone who can drive well can drive a Corvette; the only thing that really sets it apart from today's automobiles is the absolutely ecstatic way it goes down the road. Built into every Corvette is a lifetime supply of pure sports car excitement such as you've never known before.
