

Tune in HENRY J. TAYLOR,
ABC Network, every Monday evening.

Far from Home but ready for fun!

HERE you are, several hundred miles from home—with a full, gay evening ahead. You step from your Buick, greet your friends—and with just a quick change and brush-up you are ready to go.

It hasn't always been so. Too often driving strain has taken a toll that left you too fagged out for fun.

But now Dynaflow* is here. And Dynaflow's happy users will tell you it means far more than fewer hand and foot movements.

You'll be surprised at how it frees your mind to have no clutch-pedal pushing or gearshifting to think of. And you'll be delighted at how Dynaflow smooths and softens your trip.

*Dynaflow Drive is standard on ROADMASTER, optional at extra cost on SUPER and SPECIAL models.

For Dynaflow cloaks the whole day in a sort of liquid "sweetness," free of direct gear harshness, yet full of quick response to your treadle foot.

You seem to flow over the highway, and you really feel the difference—in the restedness you know at journey's end.

Naturally, you can't get all this from a single demonstration. But you can get enough to give you an idea. And you can learn how quickly you can put yourself behind a Dynaflow wheel—and how easily from the financial standpoint.

For your own sake, see your nearest Buick dealer right away, will you?
