Innovation. It means looking at things from every angle in a whole new way. The innovative 2003 GMC® Savana® offers greater access, control and drivability to bring more speed, efficiency and ease to your business day.

The 2003 GMC Savana is more accessible. This new van now offers a segment-exclusive left-hand 60/40-passenger door, optional on select models,* for even greater access to interior space. Loading and unloading are further enhanced thanks to a low floor height, wide door openings and a low step-in height. And because of the professional grade thinking that went into the new Savana, you now have greater access all around.

*Available only on models with 135" wheelbase. Excludes other GM vehicles.
